12,600 Acres

16 Bird Islands in 2025
1,100 Total Acres

[^] Area Influenced by Dredged Material
Placement; Excludes Delta Mud Flats
Visible in this Low-Water Image.

BENEFICIAL USE

BENEFICIAL USE

Habitat conditions on a pimple mound.

CONCLUSION

- Industry provides benefit to the nation
- Industry could not operate without proper channel maintenance
- Partnering with the Corps, Adequate Operations & Maintenance Funding, and Special –purpose dredge Arulaq contract have made industry activity possible
- Beneficial use of dredge material provides storm protection and creates habitat

THANK YOU!
